

Pyro

This is only a small range of the pyrotechnics and effects that we supply. We mainly stock Le Maitre equipment and consumables, if there is something you would like just give us a call - we are always happy to give help or advise on the safe use of pyrotechnics.

Le Maitre 2 Way Pyro Detonator

Each channel can be fired individually with 100 metres of cable and up to 16 effects wired in series, or both channels can be fired at once with up to 8 effects on each channel

6 Way / 24 Way Le Maitre Pyro Detonator

The Pyroflash 6/24 is a 6 channel unit, offering a range of features to enable any number of combinations of effects to be fired safely and reliably.

- Key switch for complete safety
- Intelligent monitoring means that any fault or damage to the system is shown instantly, allowing the system to be disabled before firing
- Integrated test facility for assured firing status
- Each of the 6 channels, if selected independently, is capable of firing up to 10 effects, wired in series over a maximum distance of 50 metres
- Used in conjunction with standard pods, variable angle pods, twin pods and splitter boxes
- Up to 240 effects can be fired from one system. Using the channel selector switch and a splitter box on each channel enables the firer to select any one of 24 channels. Each of these channels can take up to 10 effects in series. Each channel must be fired individually
- All 6 channels can be fired simultaneously with up to 5 effects wired in series on each channel
- Supplied with 3 pin bulgin connections.

Standard & Angled Flash Pods
Single Straight & Angled Gerb Holders
Tree Way Gerb Holders
Termination Box's
Splitter Box's
Pre made bulgin cables

Confetti Cannon

The Electric Air Cannon is designed to fire streamers, glitter or confetti up to 15 metres, at any angle, with minimum noise. It is particularly useful in venues where pyrotechnics are not an option.

Each firing requires a small CO2 bulb to be simply screwed into the front of the unit, a lifting cap to be inserted into the barrel, followed by the consumables and then a back pressure cap over the end of the barrel.

- Mains operated / CO2 fired.
- Series linking option available.
- Floor standing or truss mounted.
- Supplied with 2" barrel and safety bond.
- Fires up to 15 metres.
